ANNUAL AVERAGE EMPLOYMENT GRAPH

(Cover Page)

The graph on the cover page shows employment gains and losses in each county based on annual average 1986 vs annual average 1987 data on covered employment.

Prominent employment changes occurred in the following counties:

Missoula	+500	Yellowstone	-434
*Lewis & Clark	+460	Richland	-294
Silver Bow	+382	Dawson	-251
Flathead	+378	Rosebud	-199
Lake	+255	Park	-119
Stillwater	+194	Gallatin	-115
Ravalli	+191	Fallon	-101
Jefferson	+142	Carbon	- 98
Sanders	+90	Hill	- 83

*Employment in Lewis & Clark county includes an employer with statewide employment reported into this area. Beginning with the first quarter of 1988 this employer will report Lewis & Clark county employees and statewide employees. If possible, the statewide employees will be broken down to their respective counties.

GLOSSARY

COVERED EMPLOYMENT
Employers, whose total annual payroll exceeds $1,000 in the calendar year, who are subject to Montana's Unemployment Insurance law.

Also includes:
- -Agricultural employers if they paid $20,000 or more in a quarter, who are subject to Montana's unemployment insurance law.
- -Domestic service employers if they paid $1,000 or more in any quarter.
- -Self-employment on a voluntary basis.

Excludes:
- -Individuals in employment of son, daughter or spouse.
- -Child under 18 in employment of parent.
- -Railroad employees.
- -Real estate or insurance salespeople paid solely by commission.
- -Student workers, inmate workers or patient workers.
- -Elected officials.
- -Church employees.

SIC CODE (Standard Industrial Classification Code)
The objective in industry classification is to have each place of business coded on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each activity. Industry codes are assigned to each reportable establishment based on 'nature-of-business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT
An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT
Annual average employment is the average number of monthly workers covered under the Montana unemployment insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month

ANNUAL WAGES PAID

Total wages, as reported on the quarterly contribution report of employers covered by the unemployment insurance law, are the total amount of compensation paid by the employer during the year.

TAXABLE WAGES

Taxable wages are that part of employers' annual wages subject to the unemployment insurance tax. Taxable wages are reported quarterly, and normally are highest in the first and second quarter, since UI taxes apply to first dollars earned during the year.

CONTRIBUTIONS

Contributions are the taxes due on taxable wages for the year. Taxes are assessed on subject employers at rates determined by Montana's experience-rating law.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.

TOTAL OF ALL INDUSTRIES

(excludes government)

In 1981, Transportation, Communications & Public Utilities and Mining led the increase of employment. Mining and Manufacturing curtailed operations and dropped overall employment in 1982. In 1983, Manufacturing and Finance, Insurance & Real Estate reversed the trend and improved statewide employment. The improvement continued in 1984, when every major industry recorded employment gains except Construction. Mining, Construction and Wholesale Trade fell sharply in 1985 and 1986 but the impact was weakened by employment gains in the Service industry.
In 1987, Construction and Wholesale Trade continued to lose employment. This was compounded by a sharp decline in Transportation, Communications & Public Utilities. The Retail Trade industry and the Services industry made strong employment gains which yielded a net employment improvement for the year.

AG / AG SERVICES

All divisions of Agriculture / Agricultural Services made steady employment increases from 1980 through 1985, with emphasis on the employment gains in Cash Crop Production. A 4% decline in 1986 was triggered by employment losses in Livestock Production. With minor losses in most other divisions, Agri-Services increased employment to give the industry an overall gain for 1987.

MINING

The employment fluctuations occurring in 1980 through 1986 can be attributed to the reaction of the Oil & Gas Exploration and Extraction industry to foreign market prices and to the loss of a major copper mining employer. Employment in Metal Mining, more specifically Gold Mining, offset employment losses in the other mining divisions to halt the industry's decline in 1987.

CONSTRUCTION

The employment decline through 1985 has been attributed almost entirely to the cutback of a large industrial contractor. However, 1986 and 1987 continued a marked employment decline with heavy losses in General Building Construction and the allied Special Trades.

MANUFACTURING

The closure of a copper smelting and refining operation and closures and cutbacks in the Lumber industry, logging and sawmill operations, brought about the sharp employment decline of 1982. From 1983 through 1986, the employment gains and losses of the Manufacturing industry followed the fortune of the Lumber industry. In 1987, the Lumber industry improved employment but losses suffered by the Chemicals, Petro-Coal, and Stone, Clay & Glass industries continued the employment decline for a third year.

TRANSPORTATION, COMMUNICATIONS and PUBLIC UTILITIES

Employment gains in 1981 and 1982 followed deregulation of the trucking industry and growth in the Communications industry. The employment drop in 1983 was the result of a strike against a major communications company. Montana employment in 1984, 1985 and 1986 remained below the 1982 level with the divestiture of a national communications corporation. In 1987, re-organization of a national communications company and employment losses in the Trucking industry gave this industry its sharpest decline of the eighties.

WHOLESALE TRADE

Lumber and Farm Machinery Sales led the employment decline in 1982 and 1983. The Lumber industry improved in 1984 and dropped off again in 1985. The majority of the 1985 - 1986 decrease in employment was due to changes in the industry's Standard Industrial Classification Codes (SIC Codes) which placed many of the establishments of Wholesale Trade into the Services and Retail Trade classifications. This industry remained stable in 1987 with only slight employment losses which were most noticeable in Commercial Machines & Equipment.

RETAIL TRADE

The increased employment of 1983 and 1984 occurred primarily in Eating and Drinking Establishments which increased by over 1200 employees. The drop in 1986 was made up of employment losses in nearly every division of Retail Trade. Auto Dealers, Service Stations and General Merchandising provided the 1987 employment increase.

FINANCE, INSURANCE & REAL ESTATE

There was a substantial increase of insurance agents and real estate agents from 1982 through 1984. The employment loss of 1986 occurred primarily in the Banking industry, which continued to lose employment in 1987. Insurance Carriers and Real Estate brought about the industry's employment gains in 1987.

SERVICES

The Service industry is proving to be the growth industry of the eighties. in 1987, this industry made its greatest annual increase of employment. It has increased its employment in five consecutive years following a slight drop in 1982. Since 1980, this industry has gained 1,350 net new establishments (employers) and provided more than 10,300 new jobs statewide.

During the past seven years Health Services has grown by 5,180 employees and Business Services increased by 2,600 employees. The expansion of Montana business catering to tourism and recreation created nearly 1,000 new jobs in the Amusement and Recreation Services division of this industry. Changing leisure lifestyles are reflected by the increase of video rental employment, the subsequent loss of 220 employees in the Motion Picture & Theatre industry and the loss of 200 employees by Membership Organizations throughout the state. Within the industry, Social and Legal Services, collectively, have added an additional 1,200 employees, while Private Household Employment has nearly tripled thus far in the eighties.

GOVERNMENT

Government employment, overall, decreased from last year and remains within 1% of its 1980 annual average employment level.

Local Government lost 461 employees compared to 1986 and has gained 4% or 1256 employees since 1980.

State Government reduced average employment by 283 positions during the year and its 1987 annual average employment is about 1% below the 1980 level.

The Federal Government increased employment over last year by 3.6% or 454 employees but this is 5% below their 1980 employment in Montana.
